RE: TG 4 - DE BUG FUEL DECONTAMINATOR

1 This serves to inform you that the port main engine which was fitted with your L1000-De bug in Feb 91, has lesser frequency of fuel filter change as compared to the stbd main engine. The reduction is about 40%.

2 In this respect we would be modifying the stbd main engine fuel line to accomodate the decontaminator.

FABIAN CHAN TECK SAN
